

Prairie Lakes Youth Programs Annual Report on PREA Implementation In our  
Secure and Non-Secure Facilities

Date of Review: 5-17-21

Review Completed by: Melissa Denton, Kyle Collins, Jared O'Neill

Information Reviewed: Sexual Misconduct – Abusive Contact – 1 incident  
Sexual Harassment – 2 Substantiated, 1 Unsubstantiated, 2 Unfounded

Recommendations:

There were no identifiable trends associated between any of the Sexual Harassment incidences, so there is no specific corrective action that is needed. However, as a preventative measure regarding the Sexual Misconduct incident, the seating of residents has been reviewed and adjusted in order to monitor the resident's interactions better through camera viewing and staff positioning.

We will continue to review all incidences of sexual misconduct in our weekly team meetings in order to identify trends and behaviors of residents that are of concern, and take all measures possible to prevent Sexual Misconduct, Sexual Abuse, and Sexual Harassment in our facilities.
